PARVINDER SINGH

WordPress & PHP Developer

Sri Ganganagar (Rajasthan), India | +91 6376906516 | preet90310@gmail.com | Portfolio: parvinder.ct.ws

PROFESSIONAL SUMMARY

WordPress and Full-Stack Developer with 4+ years of experience building custom WordPress themes and plugins, Advanced Custom Fields (ACF) solutions, Shopify stores, and PHP/MySQL web applications for clients across multiple countries. Skilled in converting Figma designs into pixel-accurate, mobile-friendly websites using HTML5, CSS3, Bootstrap, JavaScript, jQuery, and AJAX. Strong in debugging, performance optimization, and clear client communication.

CORE SKILLS

Front-End:	HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX, Responsive Design, Cross-Browser Compatibility
Back-End:	PHP, MySQL
WordPress:	Custom Theme Development, Custom Plugin Development, Widgets, Advanced Custom Fields (ACF), Elementor, Gutenberg, WPBakery, Breakdance
Other Platforms:	Shopify, Wix, Webflow, Squarespace, Framer, GoHighLevel (GHL)
UI/UX:	Figma to Website Conversion
AI Tools:	ChatGPT, Claude, GitHub Copilot, Google Gemini
Other:	Website Debugging, Performance Optimization, SEO Fundamentals, Project Management

WORK EXPERIENCE

Full-Stack Developer | Webtech99 — November 2024 – Present

- Built a custom WordPress theme from scratch with responsive templates and clean, reusable code structure
- Developed a custom WordPress plugin to extend site functionality
- Configured ACF field groups and built custom ACF templates for dynamic, easily editable page sections
- Delivered a live production website with the custom theme, plugin, and ACF working together
- Build and customize WordPress and Shopify storefronts, including theme customization and plugin integration
- Implement AJAX-based interactive features for a smoother user experience
- Convert Figma designs into functional, mobile-friendly interfaces
- Diagnose and resolve front-end and back-end issues to keep sites stable and fast
- Gather client requirements and deliver projects within agreed timelines

Full-Stack Developer | OZ Outsourcing Pvt. Ltd. — September 2023 – October 2024

- Built and maintained client websites using WordPress, PHP, and JavaScript
- Developed responsive layouts and connected front-end components with back-end logic
- Worked across multiple platforms and tools to meet varied client requirements
- Troubleshot and fixed bugs to improve site reliability

Full-Stack Developer | Teejaysoft — February 2022 – March 2023

- Developed and maintained full-stack web applications using PHP, MySQL, JavaScript, and jQuery
- Built responsive, cross-browser-compatible pages from design files
- Collaborated with team members and stakeholders to deliver features on schedule

Full-Stack Developer | Munjal Software Lab — January 2021 – February 2022

- Built front-end and back-end features for client websites using HTML, CSS, Bootstrap, JavaScript, and PHP
- Integrated database-driven functionality using MySQL
- Gained hands-on experience with WordPress and client-side scripting with AJAX

SELECTED PROJECTS
